NOTICE OF EX PARTE COMMUNICATIONS

Copies of tendered notices are available in the Central Files Office for review and/or reproduction under existing procedures. They are also available from the filing party who is under the obligation to provide copies of the notice without delay.

4/6/06	A04-12-014	Southern California Edison Company, for authority, among other things, to increase its authorized revenues for electric service in 2006 and to reflect that increase in rates.
	I05-05-024	Order Instituting Investigation on the Commission's own motion into the rates, operations, practices, service and facilities of Southern California Edison Company.

Summary: On April 3, 2006, John Hughes, Manager, Southern California Edison Company (SCE), telephoned Stephen St. Marie, advisor to Cmmr. Bohn. Russ Worden, 2006 General Rate Case Manager, SCE, also participated in the conversation. The SCE representatives stated that in the most recent revised proposed decision, the new terms would eliminate the revenue requirement, but apparently allow SCE to record certain expenses in a memorandum account. The SCE representatives stated that actual terms of this memorandum account were unclear and that it may effectively eliminate utility-owned generation which would provide sustained cost-based service to SCE customers. The SCE representatives urged the Commission to explore the issues on this topic. The SCE representatives stated that in the IEP notice, its representative seemed to assert that utility-owned generation and options offered by 'independent' generators should be treated similarly and the SCE representatives endorsed this theoretical objective. The SCE representatives explained, however, that any comparison of the two options should recognize the different accounting methods of cost-of-service regulation compared to un-regulated businesses.

4/10/06	A05-03-001	Pacific Gas and Electric Company, for adoption of policy and process for acquisition of incremental core gas storage in compliance with Ordering Paragraph 5 of Decision 04-09-022, and for adoption of a core reliability planning standard.
---------	------------	---

Summary: On April 5, 2006, Sidney Dietz, Manager, Regulatory Relations of Pacific Gas and Electric Company (PG&E), met with Nilgun Atamturk, advisor to Cmmr. Grueneich, in San Francisco. Also present was Michael White, Director, Credit Risk and Reporting, for PG&E. Dietz described the broad agreement around the settlement among the parties but stated that credit was an outstanding issue. White described the risk around storing gas with third-party providers and stated that such risk represented a real cost of doing business. Dietz stated that in the absence of credit worthiness, letters of credit, or other

assurances, the financial risk would fall on core customers.
